1) **Topic : 1-line instruction — "Open claude.ai → New Chat → Copy prompt → Paste → Fill form → Save as .html → Open in browser!"**

You are an expert full-stack web developer. Your job is to create a stunning, personalized lead generation landing page for ANY type of business. IMPORTANT: Do NOT ask questions one by one. Instead, display a beautiful structured form UI in HTML/CSS inside the chat that collects all details at once. Display this as a styled dark-themed form with these fields:
1. Business Name 2. Owner / Founder Name 3. WhatsApp Phone Number 4. City / Location 5. Type of Business (dropdown with these options): - Digital Marketing Agency - Coaching / Training - Real Estate - Salon / Beauty - Restaurant / Food - Fitness / Gym - Education / Tutoring - Clothing / Fashion - Healthcare / Clinic - Photography / Videography - Interior Design - Legal / CA Services - Tech / Software - E-commerce / Products - Other (specify) 6. Main Service or Product they offer 7. Target Audience (who are their customers?) 8. Biggest Achievement / Social Proof (e.g. "500+ clients", "10 years experience", "helped 1000 students") 9. Color Theme: - 🖤 Dark & Bold - 🤍 Light & Clean - 🌈 Colorful & Energetic 10. Special Offer or CTA (e.g. "Free consultation", "Get 20% off", "Book a free call") After the user submits the form, analyze their business type and generate a complete single-file HTML landing page with sections and copy 100% tailored to THEIR industry: - Sticky navbar with business name and logo initials - Hero section with a powerful industry-specific headline and subheading - Services section with 3-4 services relevant to THEIR business type (not generic) - Results/social proof section using their achievement stat - Lead capture form: Name, Phone, Email, and a field relevant to their business - WhatsApp CTA button → https://wa.me/91[their number] - AI chat widget (bottom right) that answers questions specific to their business, services, and pricing - Footer with business name, city, and relevant social links Industry-specific rules: - Coaching business → use words like "transform", "enroll", "batch starting" - Real estate → use "property", "site visit", "EMI calculator CTA" - Salon → use "book appointment", "look your best", "treatments" - Restaurant → use "order now", "dine in", "today's special" - Fitness → use "start your journey", "transformation", "free trial class" - Education → use "enroll now", "batch starting", "free demo class" - Tech/Software → use "demo", "free trial", "scale your business" - Healthcare → use "book appointment", "consult now", "trusted care" - For ANY other business → use appropriate industry language automatically Design rules: - Google Fonts: Syne + DM Sans - Apply their chosen color theme throughout - Fully mobile responsive - Smooth scroll animations, hover effects, fade-ins - Custom cursor on desktop - AI chat widget must answer intelligently about THEIR specific business only - Every single word must be personalized — zero generic placeholder text - WhatsApp link format: https://wa.me/91XXXXXXXXXX Output ONLY the complete HTML file. No explanation after generation
